Contents of Volume 226, 1982

No. 1 issued on August 27, 1982

Y. Takeuchi, H. Kimura, Y. Sano: Immunohistochemical demonstration of serotonin-containing nerve fibers in the cerebellum 1

S. Yamada, S. Mikami, N. Yanaihara: Immunohistochemical localization of vasoactive intestinal polypeptide (VIP)-containing neurons in the hypothalamus of the Japanese quail, *Coturnix coturnix* 13

A.J. Zamora, V.D. Ramirez: Ultrastructure of the rat median eminence after superfusion 27

M. Grönblad, K.E.O. Åkerman, O. Eränkö: Endocytotic uptake of cationized ferritin tracer into glomus cells dissociated from the adult rat carotid body 37

L. Rechardt, H. Hervonen: Ultrastructural changes in the neurohypophysis of the aged male rat 51

F. Yokohari, Y. Tominaga, H. Tateda: Antennal hygroreceptors of the honey bee, *Apis mellifera* L. 63

M. Nistal, R. Paniagua, M. Asunción Abaurrea: Varicose axons bearing "synaptic" vesicles on the basal lamina of the human seminiferous tubules 75

P. Eikelenboom, D.M. Boorsma, N. van Rooijen: The development of IgM- and IgG-containing plasmablasts in the white pulp of the spleen after stimulation with a thymus-independent antigen (LPS) and a thymus-dependent antigen (SRBC). An immunohistoperoxidase study 83

F. Harrisson, J. Van Hoof, L. Vakaet: The relationship between the folliculo-stellate network and the thyrotropic cells of the avian adenohypophysis 97

J. Yamada, N. Kitamura, T. Yamashita, M. Misu, N. Yanaihara: Vasoactive intestinal polypeptide (VIP) immunoreactivity of endocrine-like cells in the feline pyloric mucosa 113

B.L. Hansen, G.N. Hansen, C. Hagen: Immunoreactive material resembling ovine prolactin in perikarya and nerve terminals of the rat hypothalamus 121

R.H. Douglas, H.-J. Wagner: Endogenous patterns of photomechanical movements in teleosts and their relation to activity rhythms 133

M. Bundgaard: The ultrastructure of cerebral blood capillaries in the ratfish, *Chimaera monstrosa* 145

R. Brelińska, Chr. Pilgrim: The significance of the subcompartments of the marginal zone for directing lymphocyte traffic within the splenic pulp of the rat 155

M. Karasek, E.C. Hurlbut, J.T. Hansen, R.J. Reiter: Ultrastructure of pinealocytes of the kangaroo rat (*Dipodomys ordi*) 167

J.L.M. Leunissen, A.M. de Leeuw, J. Peute, H.J.T. Goos: Immunocytochemistry of gonadotropic cells and identification of cell types in ultrathin cryosections of the pituitary of the rainbow trout, *Salmo gairdneri* 177

K.N. Hirji: Autoradiographic observations on the incorporation of amino acids into oesophageal, gastric and pancreatic glands in the leopard frog, *Rana pipiens* 195

J.M. Lauweryns, A. Van Lommel: Morphometric analysis of hypoxia-induced synaptic activity in intrapulmonary neuroepithelial bodies 201

J.M. Lauweryns, V. de Bock, A.A.J. Verhofstad, H.W.M. Steinbusch: Immunohistochemical localization of serotonin in intrapulmonary neuro-epithelial bodies 215

Short Communications

C.-Chr. Meinecke, H. Langer: Structural reactions to polarized light of microvilli in photoreceptor cells of the moth *Spodoptera* 225

M. Pestarino: Occurrence of different secretin-like cells in the digestive tract of the ascidian *Styela plicata* (Urochordata, Ascidiacea) 231

Cl.B. Grothe: Axon terminals with unusual vesicles in the brain of the polychaete, *Ophryotrocha puerilis* 237

No. 2 issued on September 21, 1982

H. Sawada: The fine structure of the bovine Descemet's membrane with special reference to biochemical nature 241

I.K. Takeuchi, Y.K. Takeuchi: Ultrastructural and cytochemical studies on nucleolus-like bodies in early postimplantation rat embryos 257

A. Barber: Monoamine-containing varicosities in the neural sheath of a gastropod mollusc demonstrated by glyoxylic acid histofluorescence 267

H.-W. Korf, Chr. Simon-Oppermann, E. Simon: Afferent connections of physiologically identified neuronal complexes in the paraventricular nucleus of conscious Pekin ducks involved in regulation of salt- and water-balance 275

R. Uddman, L. Edvinsson, L. Malm: Perivascular nerves in the feline carotid rete 301

Y. Tominaga, F. Yokohari: External structure of the sensillum capitulum, a hygro- and thermoreceptive sensillum of the cockroach, *Periplaneta americana* 309

R. Pabst, R.M. Binns: The three-dimensional reticular structure of the pig spleen demonstrated by labelling with fluorescein isothiocyanate 319

N. Obara, Sh. Tochinai, Ch. Katagiri: Splenic white pulp as a thymus-independent area in the African clawed toad, *Xenopus laevis* 327

H. Altner, Th. Bauer: Ultrastructure of a specialized, thrust-sensitive, insect mechanoreceptor: Stimulus-transmitting structures and sensory apparatus in the rostral horns of *Notiophilus biguttatus* 337

D.R. Nässel, N.J. Strausfeld: A pair of descending neurons with dendrites in the optic lobes projecting directly to thoracic ganglia of dipterous insects 355

K.M. Madsen, C.W. Applegate, C.C. Tisher: Phagocytosis of erythrocytes by the proximal tubule of the rat kidney 363

A. Forge: A tubulo-cisternal endoplasmic reticulum system in the potassium transporting marginal cells of the stria vascularis and effects of the ototoxic diuretic ethacrynic acid 375

P.J. Berger, I.L. Gibbins, D.K. Hards, L.J. Crosby: The distribution and ultrastructure of sensory elements in the baroreceptor region of the truncus arteriosus of the lizard *Trachydosaurus rugosus* 389

C.H. Yeung, T.G. Cooper: Ultrastructure of the perfused rat epididymis: Effect of luminal sodium ion concentration 407

G. Sterba, Chr. Kießig, W. Naumann, H. Petter, I. Kleim: The secretion of the subcommissural organ. A comparative immunocytochemical investigation 427

H. Greven, H. Robenek: Further freeze-fracture studies on the uterine epithelium of *Salamandra salamandra* (L.) (Amphibia, Urodela) using the antibiotic filipin 441

M.K. Shaw: The fine structure of the brain of *Gastrocotyle trachuri* (Monogenea: Platyhelminthes) 449

Short Communications

K. Spanel-Borowski, L.J. Petterborg, R.J. Reiter: Preantral intra-ovarian oocyte release in the white-footed mouse, *Peromyscus leucopus* 461

W. Witaliński: Unusual structural changes in mitochondria during spermiogenesis in the oribatid mite, *Hafenrefferia gilvipes* (Acari) 465

No. 3 issued on October 8, 1982

T. Itoh, S. Kasahara, S. Aizu, K. Kato, M. Takeuchi, T. Mori: Formation of Hassall's corpuscles in vitro by the thymic epithelial cell line IT-26R21 of the rat 469

M. Kojima, Y. Takeuchi, M. Goto, Y. Sano: Immunohistochemical study on the distribution of serotonin fibers in the spinal cord of the dog 477

P.M. Motta, S. Makabe: Development of the ovarian surface and associated germ cells in the human fetus. A correlated study by scanning and transmission electron microscopy 493

M. Sakagami, T. Matsunaga, P.H. Hashimoto: Fine structure and permeability of capillaries in the stria vascularis and spiral ligament of the inner ear of the guinea pig 511

M.P. Schreibman, L.P. Pertschuk, E.A. Rainford, H. Margolis-Kazan, S.J. Gelber: The histochemical localization of steroid binding sites in the pituitary gland of a teleost (the platyfish) 523

F.E. Hossler: On the mechanism of plasma membrane turnover in the salt gland of ducklings. Implications from DNA content, rates of DNA synthesis, and sites of DNA synthesis during the osmotic stressing and destressing cycle 531

M.W. Hill, R.R. Harris, C.P. Carron: A quantitative ultrastructural analysis of changes in hamster cheek-pouch epithelium treated with vitamin A 541

D.C.M. Taylor, H.-W. Korf, Fr.-K. Pierau: Distribution of sensory neurones of the pudendal nerve in the dorsal root ganglia and their projection to the spinal cord. Horseradish-peroxidase studies in the rat 555

N. Kouyama, T. Shimozawa: The structure of a hair mechanoreceptor in the antennule of crayfish (Crustacea) 565

E.G. Gray, L.E. Westrum, R.D. Burgoyne, J. Barron: Synaptic organisation and neuron microtubule distribution 579

R. Taugner, A. Schiller, S. Ntokalou-Knittel: Cells and intercellular contacts in glomeruli and tubules of the frog kidney. A freeze-fracture and thin-section study 589

Y. Uchiyama, K. Saito: A morphometric study of 24-hour variations in subcellular structures of the rat pancreatic acinar cell 609

D. Lecaque, J. Secchi: Ultrastructural changes of sebaceous glands in castrated and testosterone-treated male rats. A qualitative and quantitative study 621

D.S. Williams: Rhabdom size and photoreceptor membrane turnover in a muscoid fly 629

G.E. Fåhræus-van Ree, S.E.F. Guldenaar, J.Th. Gielen: Fine structure and function of isolated gonadotropic cells as revealed from pituitaries of immature rainbow trout, *Salmo gairdneri,* by means of a new enzymatic dispersion technique 641

A. Greenberg, O. Zinder: α- and β-receptor control of catecholamine secretion from isolated adrenal medulla cells 655

S.H. Fatemi, C. Bedrossian, W.J. Thompson, G.C. Rosenfeld: Isolation and enrichment of the gastric chief cells of the rat 667

J.L.S. Cobb, T.R. Stubbs: The giant neurone system in Ophiuroids. III. The detailed connections of the circumoral nerve ring 675

Short Communications

P.W.L. Kwan, F.B. Merk, I. Leav, P. Ofner: Estrogen-mediated exocytosis in the glandular epithelium of prostates in castrated and hypophysectomized dogs 689

B. Borg, H.J.Th. Goos, M. Terlou: LHRH-immunoreactive cells in the brain of the three-spined stickleback, *Gasterosteus aculeatus* L. (Gasterosteidae) 695
